About Us

Xania Healthcare Pvt. Ltd. is an American Indian company with offices in Ahmedabad, India and Delaware, USA. We specialize in nutritional and dietary supplements that are presented in delightful ways to aid compliance to good health.

We believe in restoring good health to keep diseases at bay. Our nutritional products are aimed at maintaining good health and thus keeping diseases away.

Presented in the form of tasty gummies and effervescent tablets; our nutritional products guarantee compliance to nutrition and thereby commitment to good health. We have formulated our products in such a way that Kids and Adults both will love to have them.

All our products are manufactured at licensed sites audited by the regulatory authorities for GMP and FSSAI. These manufacturing units are located in the United States of America, Ahmedabad and Mumbai. All the products are assured for best quality owing to the stringent quality standards set by our core team.

Our Vision

Reliable products supported by exceptional customer service is our goal. We will practice quality in all the aspects of our business.

Our Mission

We are on a mission of 'Restoring and maintaining good health to keep diseases at bay'. We are focused on providing best quality and reliable products in the segments of preventive healthcare and functional cosmetics.

Our Values

Integrity

Quality

Service

Words From CEO

A STRONG-SUITED LEADER

Mr. Kumar is a well-known business leader with expertise in sales and marketing and international trade. He has over two decades of experience and has visited over 85 countries on six continents. In his journey, one thing that always bugged him was a lack of initiative in professionals. Because a leader is the lynchpin that ties a company together, self-initiative is essential. The idea of Xania Healthcare was curated in 2015. The dream was to build a company on solid foundations of thorough professionalism, human values, service, and trust. However, it wasn't a solo idea. One fine day in 2018, Mr. Kumar and the other founding members met to discuss the structure, mission, and vision of their company. The founders themselves comprise a complete institution in themselves, with a collective work experience of 100 years. After brainstorming sessions, they shaped Xania Healthcare into a full-fledged company.

WORDS TO LIVE BY

Your mind is the sharpest and strongest weapon in your possession. Be optimistic. Be positive. Keep smiling.

- Nirupam Kumar

Since then, the company has faced many highs and lows, yet it maintained a scalable path. It wasn't a cakewalk, especially for Mr. Kumar. Establishing a pliable culture, policy, and operational constraints owing to the epidemic, building an able management team, and lastly, managing a team in a competitive market while retaining and maintaining their morale certainly tested his mettle. But then again, he is always on a learning curve. He believes in learning from experience to make better decisions. He has seen many dark days in his remarkable journey, but they have helped him evolve rapidly and adapt to better ways of handling scenarios. He is a risktaker and analytic in approach, which helps him face and address impediments.

What Fuels Their Forte?

Driven by industrial veterans, Xania has experience in international business, supply chain, and R&D in global healthcare. But R & D is the most essential part of its business. Mr Kumar says, "Our R & D affinity focuses on internal development, as well as product development for our global customers;".

The Next Feats To Achieve

Xania's plans for the future are primarily to democratize its offerings across the global landscape. Within the next 5 years, the company intends to establish operations in 50 nations across America, Australia, Asia, Africa, and Europe. They will focus on creating innovative formulations in innovative dosage forms at an affordable price. Xania is in the process of building and establishing its global brands. Brands like Xano Fit, Xano Fizz, Ultraxan, and Suregrow are already in the marketplace, creating a lot of buzz. These are the flagship brands of Xania, and with time, it will strengthen and work towards building a global presence for these brands across the continents.
